## Screen Time Usage Permission

2024-2025 School Year

As a play based preschool setting, it is imperative that most of our class time be spent offering hands on and interactive activities for our students during the few hours they spend with us. To help achieve this, screen time in the classroom will be limited to teachers showing short, educational videos to enhance a lesson, or to support music and movement through dancing or other gross motor opportunities. This use will take up no more than 15 minutes of class time per day.

I have read the above screen time policy and give permission for my child to participate in screen time activities in the manner stated above within the classroom.
